

Inseval[®] is product obtained from the combination of saponified extracts from different oils and vegetal extracts from various species.

This product stimulates the natural defenses of the plant against insect and mite pests, helping the plant avoid the establishment of the populations in the crop. **Inseval[®]** keeps the plant healthy against stressful situations such as pest attacks.

INSEVAL IS SUITABLE FOR ORGANIC AGRICULTURE ACCORDING TO THE EC REGULATION No 889/2008

COMPOSITION

Saponified extract from different oils	50,0 % w/w
Vegetal extracts	30,0 % w/w

DOSES

FOLIAR
150-300 cc/100 L of water
